

Implementing the LNOB-principle

Recover Better Support Fund

The Challenge

Civil Society Task Force: Under the oversight of CONGAD, a Civil Society Task Force was established in 2018. Since then, it has been working to monitor the progress Senegal has made in the implementation of the SDGs, while seeking to pinpoint weaknesses, limitations and obstacles.

Including the Needs of Vulnerable Groups: COVID-19 pandemic has led to setbacks in the implementation of the SDGs in Senegal. As part of the socio-economic recovery from the COVID-19 pandemic, the government developed an Adjusted and Accelerated Priority Action Plan (PAP 2A). However, the inclusion and reflection of vulnerable groups in national planning and prioritisation is lacking. Therefore, civil society needs to advocate for the needs of marginalised groups in national planning and policy and ensure the “Leave no one behind” (LNOB) principle.

The Objective

The overall objective of the project is to strengthen civil society’s capacity to influence and monitor the needs of vulnerable groups within the framework of the implementation of the SDGs and the post-COVID-19 socio-economic recovery plan.

The Target Group

The project involves national and regional levels. For the national activities, it targets various umbrella organisations, ministries and national level state bodies. For regional activities, it targets the offices at the regional level, the departments of the umbrella organisations and the deconcentrated technical services of the ministries.

The Approach

CONGAD implements the project through a contribution of the Civil Society Task Force for a follow-up of the SDGs. A national steering committee is set up to guide the implementation of the project.

Drafting a National LNOB Strategy: The national "Leave no one behind" strategy is further elaborated with the contribution of grassroots actors in interregional and national workshops. After the national strategy has been developed, PAP 2A and the LNOB strategy are linked and reviewed in further workshops to ensure that needs of vulnerable groups are addressed in implementation and monitoring.

Project Name	Dialogue and Monitoring of the Implementation of the Post-COVID-19 Economic Recovery Plan for the Achievement of the SDGs
Commissioned by	Federal Ministry for Economic Cooperation and Development (BMZ)
Country	Senegal
Implementing Organisation	Conseil des Organisation Non Gouvernementales d’Appui au Développement (CONGAD)
Duration	November 2021 – April 2023

Ibrahima Kane
iboukane5@yahoo.fr

Accountability and Data: A test facility for decentralisation and data disaggregation is being set up in one region, one department and one municipality in Senegal. Action research to disaggregate data at the local level is conducted and local development data is collected from authorities and decentralised technical services. A workshop is held to increase CSO ownership of the PAP 2A indicators and monitoring process.

Financing: A national workshop on the contribution of the private sector through corporate social responsibility is held. In addition, a concept paper on the mobilisation of domestic financial resources and the transparent management of funds for the implementation of the PAP 2A and the SDGs is prepared.

About CONGAD

CONGAD was founded in 1982 by non-governmental organisations working in Senegal to coordinate the management of relations with the State and other partners. CONGAD provides capacity building for CSOs, local authorities and the media. It is also involved in coordinating development, lobbying and advocacy activities to create a strong civil society that can influence public policies.

The Results

A national “Leave no one behind” strategy is elaborated

14 workshops at national and regional levels are held, enhancing dialogue between government and grassroots actors

Capacity Building for CSOs on data and the monitoring of the national action plan PAP 2A

A concept paper on the mobilisation of domestic financial resources and the transparent and accountable management of funds mobilised for the implementation of the PAP2A and the SDGs is available

The Recover Better Support Fund supports efforts designed and implemented in partner countries to recover from the impacts of the COVID-19 pandemic with the goal of building more resilient, inclusive, and sustainable societies while advancing the 2030 Agenda. For that purpose, it deploys two funding lines: (1) Sustainable development advisory bodies and (2) leaving no one behind and strengthening socio-economic resilience. Commissioned by the German Federal Ministry for Economic Cooperation and Development (BMZ), it supports 20 projects in 15 countries worldwide with up to 180.000 EUR.
