

Strengthening effective CSO Participation

Recover Better Support Fund

The Challenge

Civil Society Participation in Policy Planning: Tanzania recently launched its Five Years Development Plan III (2021/22 - 2025/26), which is the main implementation vehicle for the 2030 Agenda in the country. The strategic preparation of a new long-term development strategy and the second Voluntary National Review (VNR) are also underway.

COVID-19 limits Opportunities for Participation: The pandemic is slowing down the SDG implementation and limiting participation opportunities for civil society actors. The project will leverage these developments and advocate for inclusive policies in the distribution of vaccines, especially to the most vulnerable groups.

Project name	Accelerating Non-State Actors' Effective Participation in Implementation of SDGs in Tanzania amid the COVID-19 Pandemic
Commissioned by	Federal Ministry for Economic Cooperation and Development (BMZ)
Country	Tanzania
Implementing Organisation	United Nations Association of Tanzania (UNA)
Duration	November 2021 – April 2023

The Target Group

The main target group are Tanzanian civil society organisations (CSOs) that are members of the Tanzania Sustainable Development Platform. It consists of 300 CSOs ranging from grassroots to national level and representing different constituencies. Members are divided into thematic leads according to the SDGs or vulnerable groups they represent. UNA Tanzania is a co-convenor of the Tanzania Sustainable Development Platform.

In addition, the Parliamentary Group for Sustainable Development is targeted in the activities. It is composed of 35 Members of Parliament of diverse interests. The group has the opportunity to influence planning and budgetary processes before they are submitted to parliament for approval.

Local government authorities (LGAs) are also targeted by the project, as they are the main implementers of both the SDGs and the Five-Year Development Plan III on the ground.

The Approach

Initiating Strategic Dialogue: multi-stakeholder dialogues with dedicated themes are held between the various stakeholders. They enable effective communication and information sharing through the Tanzania Sustainable Development Platform and within the SDGs National Coordination Framework. To facilitate advocacy for effective implementation of the 2030 Agenda and to promote inclusive policies, policy briefs are prepared and shared with relevant stakeholders.

The Objective

The project aims to advocate and coordinate effective and active participation of non-state actors in the implementation and monitoring of the 2030 Agenda under the Five-Year Development Plan III.

Reynald Maeda
rmaeda@una.or.tz

Shadow rRport: Members of the Tanzania Sustainable Development Platform prepare a shadow report that includes interventions by CSOs and other non-state actors. It highlights the challenges brought by Covid-19 and offers recommendations for inclusive implementation of the 2030 Agenda.

Strengthening Local Governments: Local government authorities and regional administration secretariats receive training on how to develop strategic plans in line with national development plans and the 2030 Agenda.

Sharing and Learning Sessions: Information and experiences are shared with other platform partners on several regional and global platforms such as the African Regional Forum for Sustainable Development and the High-Level Political Forum.

About UNA Tanzania

UNA Tanzania looks back on 56 years of experience and has eight branches across Tanzania. The mission of UNA Tanzania is to inform, inspire and engage all Tanzanians about the critical work, goals and values of the United Nations to create a safer, fairer and more sustainable world.

The Results

4 policy briefs prepared and shared with stakeholders to advocate for effective implementation of the 2030 Agenda in Tanzania

6 multi-stakeholder dialogues conducted, and outcome document disseminated

50 members of local government authorities trained on how to mainstream the 2030 Agenda in their strategic planning

A shadow report of SDG implementation produced by CSOs of the Tanzania Sustainable Platform.

The Recover Better Support Fund supports efforts designed and implemented in partner countries to recover from the impacts of the COVID-19 pandemic with the goal of building more resilient, inclusive, and sustainable societies while advancing the 2030 Agenda. For that purpose, it deploys two funding lines: (1) Sustainable development advisory bodies and (2) leaving no one behind and strengthening socio-economic resilience. Commissioned by the German Federal Ministry for Economic Cooperation and Development (BMZ), it supports 23 projects in 16 countries worldwide with up to 180.000 EUR.

GIZ implements the Recover Better Support Fund. For further information, please visit www.recoverbettersupportfund.com or contact the funds team at recoverbetterfund@giz.de
